Bluetooth Car Kit HF820 Pairing Directions

1. Turn the speaker on by pressing the volume button. Then press the volume button once more. The Speaker Indicator LED light will shine steadily to indicate the device is in pairing mode.

2. On your phone, perform a device discovery (consult your phone manual) -

- *Most Motorola phones: Go to Settings, select Connection, select Bluetooth Link, select Hands Free, select Look for Devices.*

3. Select the Motorola HF820 from the list of discovered devices.

4. Enter the passkey 0000 when prompted, and then press OK.

5. When speaker light flashes two times rapidly, it is paired.

Note: The default Bluetooth power setting is OFF. To make sure Bluetooth is permanently turned on in your Motorola phone, go to > Settings > Connection > Bluetooth Link > Setup > Power: ON
